-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Information Disclosure Statement

Examiner did not consider the first reference listed on the Information Disclosure Statement, Goodwin, Jr. (4,489,473) as the patent number is incorrect.

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dumenigo (4,948,078) in view of Walton et al (6,644,493). Dumenigo discloses all of the structure of the devices as recited by the claims except for the hinged lid. Walton discloses a device with a hingedly attached lid for keeping the contents contained and protecting the contents from undesired access as from animals. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have incorporated the use of a hingedly attached lid as disclosed by Walton et al in the device disclosed by Dumenigo to keep the contents contained and protecting the contents from undesired access.

3. Applicant has made an amendment to claim 9 adding the statement "a plurality of clothes being removably positioned in said container and abutting said panel." The Examiner considers this a statement of intended use in view of the statement in the preamble of the claim.

Response to Arguments

4. Applicant's arguments filed December 13, 2004 have been fully considered but they are not persuasive.

5. Applicant argues that there is no motivation for use of a lid in the prior art. The device of Walton et al is intended for use as a container for garbage. As such there would be an obvious motivation to have a lid to keep the contents contained and protect it against unwanted access such as from animals (i.e. pets) as well as containing odors. Having the lid hingedly connected prevents its being mislaid. It would also be obvious to make the combination with Dumenigo for the same reasons.

6. Applicant states that the lid attached to the device of Dumenigo would not close properly due to interference from the sponge, however, there is nothing to prevent use of a lid that would be designed to provide the required clearance to close properly. Applicant further states that the use of a lid would be detrimental to the function of Dumenigo by preventing the sponge from drying. Use of a lid with ventilation holes would accomplish the desired objectives for the lid while still allowing the sponge to dry.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Meloney (5,405,043) discloses a hamper with a movable panel. Talbott et al (D468,915) and Ziglar et al (5,852,883) disclose a hamper with a hinged lid.
